

ARIYO AZIZ PRATAMA

PRODUCT DESIGNER | FRONT-END ENGINEER | FLUTTER DEVELOPER

ariyoaziz.pratama@gmail.com | +62 858 7874 3545 | Sleman, Daerah Istimewa Yogyakarta, Indonesia

PROFESSIONAL SUMMARY

Informatics graduate with a focus on Product Design, Front-End Development, and Flutter Development. Experienced in designing and developing digital products through user research, information architecture, user flows, wireframing, prototyping, design systems, and design QA. Capable of implementing web and mobile applications using React.js, Next.js, and Flutter while combining user-centered design principles with technical development skills to create intuitive, responsive, and functional digital experiences.

EXPERIENCE

Product Designer - Internship

PT Vortex Buana Edumedia

Jul 2026 – Present

Yogyakarta, Indonesia

- Designed end-to-end digital product experiences for NEON UJI, covering product understanding, UX problem solving, task flows, and high-fidelity UI design.
- Applied HMW, Crazy 8s, and prioritization matrices to explore and evaluate UX solutions based on product requirements and user needs.
- Utilized design systems and prepared design specifications to maintain consistency and support accurate developer handoff.
- Conducted Design QA across responsive behavior, interaction states, typography, spacing, accessibility, content, assets, and motion to ensure implementation quality.
- Collaborated with cross-functional teams to translate product requirements into intuitive and implementation-ready product experiences.

Freelance Photographer

Freelance

Jan 2022 – Present

Yogyakarta, Indonesia

- Plan and execute photography projects for individual and business clients.
- Edit and deliver high-quality visual assets according to project requirements.
- Communicate directly with clients to understand requirements, align expectations, and ensure project satisfaction.
- Manage project timelines, client communication, and asset delivery from initial brief through final delivery.

Assistant

Electronic Plus

Sep 2021 – May 2022

Kebumen, Jawa Tengah, Indonesia

- Perform maintenance and troubleshooting of electronic devices to support technical operations.
- Assist with hardware testing and inspect device conditions before and after servicing.
- Support customer service operations and assist with mentoring internship students.

Praktik Kerja Lapangan

Electronic Plus

Sep 2020 – Dec 2020

Kebumen, Jawa Tengah, Indonesia

- Support electronic device maintenance and customer service operations.
- Assist technicians with device inspection, testing, and repair activities.

EDUCATION

Sarjana Informatika (S1) — Informatika

Universitas Teknologi Yogyakarta

Sep 2022 – Aug 2026

Yogyakarta, Indonesia

GPA: 3.64 / 4.00

- Focused on Human-Computer Interaction (HCI), Software Engineering, Web and Mobile Application Development, and Databases.

Teknik Audio Video — Teknik Audio Video

SMK Ma'arif 4 Kebumen

Jul 2019 – Jun 2022

Kebumen, Jawa Tengah, Indonesia

- Studied electronic systems, microcontrollers, and device maintenance as a technical foundation in technology.

SKILLS

UI/UX Design: Figma, User Research, User Flow, Wireframing, Prototyping, Design System

Frontend: React.js, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Mobile: Flutter

Mobile / Languages: Dart

Backend: FastAPI, Flask, REST API

Database: PostgreSQL, MySQL

Languages: JavaScript, Python
Tools: Git, GitHub, VS Code, Postman, Canva

PROJECTS

VitaCal – Calorie and Nutrition Monitoring Application — *UI/UX Designer · Frontend Developer · Mobile Developer (Android)* Sep 2022 – Aug 2026

Technology: Figma, Flutter, Dart, REST API, PostgreSQL

- Lead the product design process from user research, user flows, and wireframing through high-fidelity prototyping in Figma using a user-centered design approach.
- Develop the Android application using Flutter and Dart, including BMI, BMR, and TDEE calculation features based on the Mifflin-St Jeor algorithm.
- Integrate REST API and PostgreSQL to support user data management and daily consumption history.

FrameFlow – Client Photo Selection Platform for Photographers — *Full-Stack Developer*

- Design and develop a full-stack platform that enables photographers to manage galleries and allows clients to select photos efficiently.
- Transform manual, chat-based workflows into a more structured photo selection process through a web application.

ORGANIZATIONS

Koordinator Pendidikan Sep 2024 – Sep 2025

UKM Campoer Seni (Fotografi) | Universitas Teknologi Yogyakarta

- Lead and coordinate education programs and member competency development in photography.
- Develop curricula, training materials, and learning activities to support the development of new members' skills.
- Collaborate with organizational administrators and members to plan and execute work programs.
- Develop leadership, communication, activity management, and team coordination skills through organizational activities and creative projects.
